

## Care Coordination

---

### Program Overview

Care coordination services support youth who have complex behavioral health needs and require the coordination of multiple services to meet those needs.

### Care Coordination is available to:

Children and youth through age 18 (or still attending school):

- Who require coordination of multiple services/supports to meet the needs of the child/youth and their family
- Youth with serious or complex mental/behavioral health challenges
- Who are at risk to be, or have already been, separated from their family and/or community (i.e. residential or hospital level care) for the primary purpose of receiving behavioral health or mental health related services

### Length of Service

The length of service for each child and family is generally up to 6 months.
