

## Outpatient Psychiatric Clinics for Children (OPCC)

---

### Program Overview

Outpatient psychiatric clinics for children are community-based children’s mental health offices providing a range of services for children and youth of any age and their families. A team of psychiatrists, psychologists, Master’s level clinicians, and other behavioral health professionals provide diagnostic and treatment services to support mental health, improve functioning in children, youth and families, and decrease mental illness, emotional disturbance and social dysfunction.

### OPCC are available to:

Children and adolescents under 18 years of age who experience a psychiatric disorder (and their families) are eligible to receive an assortment of services to address and/or support their physical, emotional, developmental, social and educational needs.

### Length of Service

The length of service is determined by the needs of the child or youth.
